## Oct. 17, 18 Homecoming Plans Well Underway

The plans for this Fall's MSTC Homecoming on October 17 and 18 are well under way. Co-chairmans Delores Anderson and Richard Reske have been making preliminary arrangements since early last spring and are working to make the event the best in years.

The two chairmans are cooperating with the Alumni Association in organizing the Homecoming; invitations will be sent out to all MSTC graduates.

Several bands and drum and bugle corps are being secured for Saturday morning's parade and there will also be a special honoring of past Queens.

A tentative schedule for the two day Homecoming has been set up as follows:

Friday afternoon: Snake Dance and freshman-sophomore tug-of-war.  
Friday night: Coronation ceremonies and burning of the "M."

Saturday morning: Homecoming parade and sorority and fraternity luncheons.

## 'Kayo Kato' Is Winning Slogan

The 1952 MSTC Homecoming will be conducted under the slogan "Kayo Kato" in honor of the Dragons who play host to the Mankato Indians in Saturday afternoon's football game.

The slogan was obtained through a contest held during the last school year. The winning entry was submitted by Harvey Stewart.

## Committees Are Organized

Mason R. Boudrye and Harold B. Addicott were named chairmen of two new committees.

The committees were derived from the old committee on Health, Recreation, and Athletics, which was too broad in scope to accomplish its purpose as effectively as the new committees.

Helping Mr. Boudrye on the new athletic committee, which will be concerned exclusively with intercollegiate athletics, are Clarence A. Glasrud, Glaydon D. Robbins, Roy J. Domek, The Athletics Commissioner, James Johnson, the Pep Commissioner, Malcolm Dahl, and the president of the "M" club, Malcolm Dahl.

T. Edison Smith, Miss Evangeline Lindquist, resident nurse, and two students to be named by the Student Commission will make up the health committee headed by Mr. Addicott.

Saturday afternoon: Football game.  
Saturday night: Alumni dinner and Homecoming dance.

Committee chairmans are: Robert Pawlowski - parade; Kenneth Garland, Harvey Stewart and freshman class president - decorations; Malcolm Dahl - snake dance and burning of the "M"; Arland Brusven - coronation; Joyce Jones - dance and Joanne Hanson - publicity.

## Snarr, Olson Greet Frosh at Assembly

Dr. O. W. Snarr, president of the college, extended a cordial welcome to the freshman last Monday in Weld Auditorium.

Dr. Snarr said, "this privilege recurring each fall is a real pleasure and it is gratifying to see such a large number of new students enrolling at MS."

Outlining some of the educational opportunities that the college offers, Snarr told of the half million dollar operating fund, and of the college's physical plant which he estimated at five million dollars.

He pointed out that the college had fifty-nine excellently educated faculty members who not only take an interest in each individual student, but who

## Slight Increase In Enrollment

With registration nearing completion, the unofficial enrollment figures released show a slight increase of students at MSTC.

The estimated total sets the enrollment between 500 and 525 students. Of this number, about 225 are freshmen, with 275 to 300 upperclassmen expected to register this week.

The 1951 fall quarter enrollment was 512. The largest change this year is in the freshman enrollment.

## Box Numbers Issued

Mailbox distribution will begin either next Monday or Tuesday in the MSTC post office on MacLean hall's first floor.

Mail deliveries are at 8:10 a.m. and 4:00 p.m.

The names of students receiving packages will be posted on the post office bulletin board.

To insure prompt and safe delivery all mail should be addressed to State Teachers college, Moorhead, Minnesota.

Four new faculty members, one an MS graduate, have assumed positions on the MSTC staff for the start of fall quarter classes.

Two faculty members have returned to resume their former duties, one, from two years of work on his doctorate degree and the other from Korea.

Donald N. Anderson has returned this year from Korea to resume his coaching duties at the campus high school. Last year Anderson returned to his team after a year's sabbatical leave, and then had to answer the call of his country.

Anderson, a captain in the National Guard and a past commander of the Moorhead unit which under his direction and leadership was one of the best company's in the state, was working in conjunction with his company only in the capacity of a G2 officer in the company headquarters.

Clarence A. (Soc) Glasrud, who has been on leave of absence for two years to complete his doctorate at Harvard University, returns this year

as acting chairman of the Division of Language and Literature.

Glasrud has always been very active in the publication department at MS. In addition to being editor of both the year book and the *MiSTiC* while a student, he has served as advisor to the paper while he was an instructor.

Donald Gourts, '51 graduate and who has recently completed his master of arts degree at the University of Minnesota, has been appointed to the Department of Industrial Arts.

Gourts will be in charge of wood-working and the majority of the Industrial dustrial Art work for the laboratory school students.

Three new faces appeared on the MSTC faculty as classes opened this morning. Dr. James S. Perlman, Laura Scherfenberg and Neil B. Thompson will fill vacancies in the physical science department, campus laboratory school, and social studies department, respectively.

Dr. Perlman will replace Olaf Anfinson as physics instructor. Mr. Anfinson left the college in June to continue graduate study. Dr. Perlman, who taught physics at MSTC under the Army Air Force program during World War II, recently received his doctor of philosophy degree from the University of Minnesota.

Dr. Perlman's teaching specialty is in physical science in the general education program, with physics as a main subject. He received his masters degree in education at Chicago Teachers college, and a bachelor of science degree from the Illinois Institute of Technology at Chicago.

Dr. Perlman is married, with two daughters. His permanent address is Minneapolis.

### LAURA SCHERFENBERG

Miss Scherfenberg will teach and supervise the first grade at the campus elementary school, taking the place of Dorothy Dodds, who has moved to the kindergarten.

Miss Scherfenberg resigned a position at Black Hills State Teachers College at Spearfish, S. D., to take the MSTC job. A graduate of St. Cloud STC, she received her master of arts degree in education at the University of Minnesota, and has done graduate work at Northwestern University at Evanston, Illinois.

Miss Scherfenberg's teaching experience includes work at Bertha, Clear Lake and Mora schools, Barron County (Wis.) Normal school, Eau Claire (Wis.) STC, Bemidji STC, and her position at Black Hills.

In a supervisory capacity, her work

DONALD N. ANDERSON  
....coach for campus high

includes five years as a grade school principal supervising five elementary teachers, and two years previous to that supervising two other primary teachers. She wrote an elementary course of study in science used at Mora.

She has also been a Sunday School superintendent for six years.

NEIL THOMPSON  
Mr. Thompson will fill the social studies position vacated by the resignation from the MSTC faculty of Estella Lau last December. The position had been filled in the interim by Samuel Bridges, retired head of the social studies department.

Mr. Thompson did his undergraduate and graduate work through the master of science degree at Kansas School of Agriculture in Manhattan, Kansas, where he received his masters degree in 1950.

Since then, he has been studying under the American studies program at the University of Minnesota, where he has completed course requirements for a doctor of philosophy degree.

Mr. Thompson will teach sections in the social studies department of the MSTC general education program, and may also participate in the humanities program, according to President O. W. Snarr.

At Kansas State, Mr. Thompson served as a teaching graduate assistant in the humanities comprehensive program titled "Man in the Cultural World."

During World War II, he was a first lieutenant in the army, serving 16 months in the European theater of operations as a line officer of the 92nd Chemical Mortar battalion. He served a total of 27 months in the armed services.

Mr. Thompson is a member of Phi Kappa Phi honor society at Kansas State. He is married, and has two daughters.

## Parents To Receive MiSTiC

Parents of students attending MSTC will receive copies of this issue and forthcoming issues of the *Western MiSTiC*.

Students whose parents do not receive the paper should report it to the *MiSTiC* office.

Subsequent issues will be published on Friday, and will be distributed in student mailboxes each Friday morning except during vacation, holidays, and examination periods.

## Six New Teachers Start Classes Today

Four new faculty members, one an MS graduate, have assumed positions on the MSTC staff for the start of fall quarter classes.

Two faculty members have returned to resume their former duties, one, from two years of work on his doctorate degree and the other from Korea.

Donald N. Anderson has returned this year from Korea to resume his coaching duties at the campus high school. Last year Anderson returned to his team after a year's sabbatical leave, and then had to answer the call of his country.

Anderson, a captain in the National Guard and a past commander of the Moorhead unit which under his direction and leadership was one of the best company's in the state, was working in conjunction with his company only in the capacity of a G2 officer in the company headquarters.

Clarence A. (Soc) Glasrud, who has been on leave of absence for two years to complete his doctorate at Harvard University, returns this year

as acting chairman of the Division of Language and Literature.

Glasrud has always been very active in the publication department at MS. In addition to being editor of both the year book and the *MiSTiC* while a student, he has served as advisor to the paper while he was an instructor.

Donald Gourts, '51 graduate and who has recently completed his master of arts degree at the University of Minnesota, has been appointed to the Department of Industrial Arts.

Gourts will be in charge of wood-working and the majority of the Industrial dustrial Art work for the laboratory school students.

Three new faces appeared on the MSTC faculty as classes opened this morning. Dr. James S. Perlman, Laura Scherfenberg and Neil B. Thompson will fill vacancies in the physical science department, campus laboratory school, and social studies department, respectively.

Dr. Perlman will replace Olaf Anfinson as physics instructor. Mr. Anfinson left the college in June to continue graduate study. Dr. Perlman, who taught physics at MSTC under the Army Air Force program during World War II, recently received his doctor of philosophy degree from the University of Minnesota.

Dr. Perlman's teaching specialty is in physical science in the general education program, with physics as a main subject. He received his masters degree in education at Chicago Teachers college, and a bachelor of science degree from the Illinois Institute of Technology at Chicago.

Dr. Perlman is married, with two daughters. His permanent address is Minneapolis.

### LAURA SCHERFENBERG

Miss Scherfenberg will teach and supervise the first grade at the campus elementary school, taking the place of Dorothy Dodds, who has moved to the kindergarten.

Miss Scherfenberg resigned a position at Black Hills State Teachers College at Spearfish, S. D., to take the MSTC job. A graduate of St. Cloud STC, she received her master of arts degree in education at the University of Minnesota, and has done graduate work at Northwestern University at Evanston, Illinois.

Miss Scherfenberg's teaching experience includes work at Bertha, Clear Lake and Mora schools, Barron County (Wis.) Normal school, Eau Claire (Wis.) STC, Bemidji STC, and her position at Black Hills.

In a supervisory capacity, her work

## Elect Officers

Orville Gran, senior, James Johnson, junior, and Patricia Short, sophomore, were elected to the office of president in last Wednesday's upper class elections.

Other senior officers are vice president, Ralph Crews and Secretary-treasurer Marlo Ann Powers.

The juniors elected Cliff Jacobson, vice president and Elizabeth Johnson, secretary-treasurer.

The sophomores named Pat Ferris, vice president, and Mary Kimm, secretary-treasurer.

The freshman will elect their class officers at a later date.

## LSA Sponsors Caravan Tour, Stag Breakfast

A student caravan tour of Fargo-Moorhead has been planned by the Lutheran Students association for three-thirty p.m. on Sunday, September 21.

The starting point will be the tunnel through Maclean Hall here on the MSTC campus. The tour will include all Fargo-Moorhead Lutheran churches, Oak Grove High school, the Lutheran Welfare society, Svea Memorial Children's home, Concordia college, and the Eventide Old Peoples home.

Following the tour a watermelon

feed and bonfire will be held at Armour Park. A charge of fifty cents per person will be made which will include meals and transportation.

Pastor E. A. Hanson, president of the Northern Minnesota District of the Evangelical Lutheran Church, will be the guest speaker at the annual Stag Breakfast of the Lutheran Students association.

Breakfast will be served Tuesday morning, September 23, at seven o'clock in the college dining hall.

Oon Ellingson and Eugene Dehlin are in charge of arrangements.

# THROUGH THE KEYHOLE

## By The Public Eye

Hello to all you new people and welcome back to the rest. This part of the paper will be devoted to about the same thing it was last year — little or nothing of importance.

If it contains anything useful I'm sorry (nothing is so boring as something useful). However, there is one thing the column will continue to do... maintain the same high standard of jokes. For the uninitiated the following is a perfect example:

Eve: "What's wrong with eating this apple?"

Adam: "I'll bite."

You may not like them at first but after a few months you'll realize there's nothing you can do about it. I hope our friendship will be long and prosperous....

When the football team was at training camp their spare time was fairly well taken care of. The club house where they stayed was equipped with an eighteen hole golf course, a swimming beach, a two lane bowling alley, a ping-pong table, a lunch counter and a nice view. I understand a few of the players even found time to do something also.

According to the Snack Shack proprietors Harvey Stewart and Ed Raymond their Ballard hall establishment will be open for business sometime next week. Right now they're in the middle of cleaning up the left overs of a small flood.

It seems the architects forgot to put a drain in the floor and when the water came there wasn't any place for it to go. Just where it came from in the first place hasn't quite been decided.

Again this year the Shack plans

to feature hamburgers, malted milks and the best coffee in town.

This fall our football team is playing at two homecoming celebrations besides our own. That usually means that the opposition expects a victory. It's too bad so many people will be disappointed....

Freshmen: If you have any doubts about your ability to make good lend an ear.

"You know," said the high school graduate, "I have half a mind to go to college."

"Well," his teacher decided, "that's as good as most."

## Straight From the Shoulder

By Someone Who's Older

Well, this is it, frosh. The first day of classes.

You may think that you've been fully oriented during this week which somebody put a title on. But take it from someone who's been around — you're got a lot to learn.

Freshmen are funny people, as a rule. They've just come from a place where they were king of the roost, and now they've way down on the bottom. But it isn't such a bad place, really. They get a certain amount of attention. After all, those beanies are colorful.

And there's sort of a place for freshmen around MSTC. After all, there are more frosh than anything else except upperclassmen. And the frosh certainly outnumber the faculty. There must be some consolation in numbers. That green look is on the face of a lot of other people, too.

But getting down to the main issue, there are a lot of ways a little advice can help a freshman out. So this writer will spend the next few column inches with some do's and don'ts for those who may be doing or don'ting. First of all. PLEASE DON'T, FOR HEAVEN'S SAKE

....Go home every weekend. Saturday night for example, the MS-Concordia classic is scheduled over at NDAC's Dacotah Field, and there's absolutely nothing like watching the Dragons breathe fire on the Fish. Either a number five or six bus will take you out to the AC, and the walk to the field isn't far. Everybody who's got any sense goes to the Concordia-MSTC football game every year. And on other weekends, there's always something to do in one or both of the two towns we have here. Besides which you can't expect to meet all the nice men (or women) we have here if you don't stick around.

....Get lost. There's no good reason for it here with all the people on this campus. A question can often find an elusive classroom or instructor much faster than walking. And walking is hard on the feet anyway.

....Study too hard. Take a little time these first couple of weeks to acquaint yourselves with everybody and everything about MSTC and Moorhead. But don't stray too close to Concordia. It costs more to go there than it does to go here, but they have an excellent public relations department.

....Try to pretend you're not a freshman. To anyone from a sophomore on up, and to most of the other freshmen, that tinge in the atmosphere around a freshman isn't the reflection of all the nice grass we've planted on this campus. And besides, those beanies—

....Worry about whether you're "well adjusted" to life at MSTC. The Great Circle is a pretty nice place 'long about the second or third week you're here, when the first unfamiliarity starts to wear off and you find out how human other people are, too. Those tests you've been taking won't get you thrown out of school, either.

ON THE OTHER HAND, PLEASE DO

....Introduce yourself to everybody you want to know or even think you want to know. When you don't know very many people in a place, Emily Post's rules on introductions don't come in very handy. And besides, life isn't very formal around here. Everyone is real friendly, if you give them a chance to be.

....Start right in taking an active part in extra-curricular or social affairs. Our struggling football coach, for example, has never been known to turn down a really good prospect. And no football team is ever so good it can't be better. Or, take this newspaper, for example. Think you'd like to work on the writing, printing, circulation or advertising end of it? You'll be welcomed with open arms. There isn't a very big staff left from last year. If you want to work, Editor Sullivan won't turn you down. That's a promise.

....Forget what horrible specimens your high school teachers were. Most of the faculty members on this campus would like to know everything there is to know about you. One of our students ended up married to a faculty member this summer. There are all sorts of possibilities.

....Take your college seriously. Flunking isn't exactly the best way to get through. After you've made yourself welcome around the Circle, there's a matter of classes and studying (perish the thought!) to be considered. That is what you're here for, isn't it?

....Remember that everybody makes a mistake once in a while, and the rest of us have forgotten our share of the names of people we were introduced to. We like to have freshmen around, and we understand some of their problems. After all, we were frosh once too, even if it was a long, long time ago.

....Have a good time. The rest of us do.

## Importance Of Education With Enrollment Increase

"More than 34½ million children and adults will be enrolled in the Nation's public and private schools and colleges during the 1952-1953 academic year," said Oscar R. Ewing, Federal Security administrator.

In releasing the annual enrollment estimates prepared by the Office of Education, Federal Security Agency, Mr. Ewing said, "Schools and Colleges throughout the United States will record the highest total enrollment in history — 34,693,000.

"This figure represents more than one fifth of our country's total population," said Mr. Ewing. It reveals the vastness of American education and the important role our schools and colleges play in helping meet the needs of our people and our Nation."

### EDUCATION A SOLUTION

Education is taking on a greater emphasis with each enrollment increase. In order to compete and cope with the more and more complex problems we have to face every day, our educational system must, of necessity, serve as a creative as well as a preservative organization.

Thus our college, with its curriculum and activities does more than pass on knowledge; it gives the opportunity to advance to each student which is not merely limited his own personal life, for each gain the individual makes is a gain, an improvement, and an advancement of our American Society.

However, the acquiring of these democratic ideals falls to the students who must tear apart and explore the knowledge and ideals that have already been gained.

Our college days are formative years in our lives. It is a challenge and we must meet it.

Published weekly except during vacations, holidays, and testing periods at Moorhead, Minnesota, by Moorhead State Teachers college. Subscription price to students is included in student activity fee. In the case of paid-up Alumni association members, subscription is included in the membership fee one half of the \$2.00 yearly dues).

Entered as second class matter May 8, 1925, at post office, Moorhead, Minnesota, under act of March 3, 1879.

### Commission Minutes

The Student Commission met Tuesday, September 16, 1952 at 10 a.m. in the commission room. All the commissioners and Mrs. Grantham were present.

The main business of the meeting was the discussion of Homecoming plans. Delores Anderson and Dick Reski, co-chairmen for the 1952 Homecoming were present.

An invitational band contest was suggested as a possibility for encouraging bands in the area to participate in the Homecoming parade. A trophy would be awarded to the winning band.

The rules for the queen campaign will remain as they were last year. These rules will be sent to the organizations sponsoring a candidate in the campaign.

Harvey Stewart read the rules for freshmen initiation which he had worked out together with Jim Johnson and Mac Dahu. These rules were discussed and approved by the commissioners.

The motion for adjournment was made by Harvey Stewart, seconded by Jim Johnson and approved by the commission.

**MSTC GRID CAPTAINS** — Talking things over with Coach Fritz Bierhaus are co-captains Bill Ihlenfeldt (l) and Ralph Crews (r). The Dragons meet Concordia College Saturday night. (Daily News photo)

## MSTC Dragons Down Valley City Teachers College 27-6

MSTC's Dragon footballers opened the 1951 season last Friday night with three long touchdown runs, some key tackles, and a 27-6 win over Valley City (N.D.) STC.

The three runs were by Ronnie Noesen, who scored all four of the Dragon touchdowns. The tackles were by Keith Olson and Bill Ihlenfeldt. And the 27-6 win put the Dragons in a position where even some of the boys across the cemetery figure MSTC may win its tussle with Concordia tomorrow night.

Noesen scooted through holes in the Viking line for touchdown runs of 42, 54 and 60 yards. He also went over from the eight yard line for six points. Jimmy Johnson, Norm Przybilla, and Darrel Hershey scored the extra points.

The first Dragon TD came with the first quarter about half over, after MSTC drove from deep in its own territory. The Dragons started by taking a punt on the 16-yard line, then passed and ran it to the Viking 42. Then Noesen took off for the right side of the field, cut in, and went all the way for the touchdown. Morrie Miller's kick was no good.

The score stayed at 6-0 until the end of the first quarter.

### HEAD FOR GOAL LINE

As soon as the second quarter opened, the Dragons started for the Valley City goal line. With the ball on the 33, halfback Johnson went for three, and a pass from quarterback Jere Cooper to Johnson picked up a first down on the Dragon 45.

Norm Przybilla picked up half a yard through center, and then Noesen, aided by some good blocking and a sleepy Viking secondary, scampered down the field for the second MSTC touchdown. Johnson ran for the extra point.

For the next 27 minutes of play the ball went back and forth between the two teams, playing in Valley City territory most of the time. At the end of the third quarter, the score was still 13-0.

Early in the final quarter, the Dragons scored again when Valley City was forced to punt from its own seven-yard line. The ball was taken on the VC 45-yard line and run back to the 31. Noesen went for four yards. Then Cooper pitched one out to Przybilla, who dropped it but picked it up again to go five yards. Cooper's three yards gave the Dragons a first down on the Viking 19.

Then Johnson went for 11 yards and a first down on the Valley City eight yard line. Noesen went around end to pick up the necessary eight yards and his third TD for MSTC. Przybilla went through center for the extra point. The score was 20-0.

Valley City picked up its only touchdown after Coach Fritz Bierhaus decided to give his first string a rest, Fullback Marlo Gudmundson put on a brilliant running show and went 62 yards for a Valley City score. The kick for the extra point was no good, and the score was 20-6.

MSTC immediately came back for the final score of the ball game. Jimmy Johnson ran the kickoff from the Dragon 18 to the 31. Then Cooper

sneaked for two yards and a Valley City offside put the Dragons on the 38. From there Noesen went all the way for the score. Hershey went over for the extra point to make it 27-6 for the Dragons.

Defensively speaking, tackles by Keith Olson and Bill Ihlenfeldt probably kept the score from being much closer than it was. Olson stopped at least four Valley City runs when there was no one else between the ball and the goal line. Ihlenfeldt was tough all the way through, and stopped several Valley City plays behind the line of scrimmage.

The game was marred by a great deal of roughness, and nearly ended in a free-for-all just after the final whistle. Both the Dragons and Vikings used their hands on offense more than

the law allows.

Bierhaus mentioned after the game that he thought the officials let the game get out of hand. He thought both teams could have used a little official discipline.

### THE STATISTICS:

	MSTC	VCTC
First Downs	12	12
Yards Rushing	307	184
Passes attempted	7	10
Completed	2	2
Intercepted by	0	0
Yards passing	27	17
Fumbles	3	2
Recovered by	2	2
Penalties	50	50

Scoring: MSTC—TD, Noesen 4, EP, Johnson, Przybilla, Hershey. Valley City — TD, Gudmundson.

## SHORT STORIES Team Sees Governor

By PAT FERRIS

The Physical Education building on the Dragon campus was a bee-hive of excitement on the morning of September 1 as the Dragons checked out football gear, packed their suitcases, and prepared for a 10 day training camp on Gull Lake at Brainerd.

After old acquaintances were renewed and new ones made, the team departed in two cars and the school bus. The boys riding in Jere Cooper's car, Ralph Crews, Bill Ihlenfeldt, Jim Johnson, Keith Olson, and Dave Lund decided by mutual agreement not to shave until they returned to Moorhead.

Dave made up his mind that he wouldn't wait. He is now walking around the campus with a crew cut given to him free of charge by his traveling mates.

While at camp, Dave met with more misfortune. He was walking up the stairs to the kitchen when a waitress slipped on the top step and planted a pie between his eyes. He is looking forward to a milder time while on campus.

At 5:30 every morning co-captains Ralph Crews and Bill Ihlenfeldt would hustle everyone out of bed. 15 minutes later the Dragons would be running the mile stretch over the golf course to the pasture where practice was held.

There were minor obstacles to overcome like fatigue, cold, fog, mosquitoes, stiff muscles, and heavy dew.

Once this was accomplished, the grid-ders would take turns cracking the tackling dummy to take the kinks out of their joints.

After a morning of loosing up, signal drills, and light contact, the boys would run back to the lodge to eat breakfast. Once the hotcakes were demolished and stomachs were full, the boys took a nap, studied their plays, or thought about the afternoon scrimmage.

Around 2:30 in the afternoon the Dragons knocked heads and ran signals once again. This continued for about two hours. Then off to the showers, and once again the team would go into its favorite play — chow line formation. When supper was finally over the boys would attend chalk talk and then settle down to a friendly game of cards. Others would study football plays, read the newspapers, hunt for golf balls out on the course, or shoot the breeze.

Dick Cunningham Frosh tackle from Moorhead High spent his time trying to cure his phobia for flies. He hung fly-paper in every corner of his room. Then he stood in the center of the room swinging a towel in an effort to drive the flies into the corners. sounds, two sleeping football players.

One high spot of the week was when Governor Elmer C. Anderson appeared at the team's supper table. Each player introduced himself to the governor as he shook hands with the entire team.

## MS Seeks Second Grid Win Saturday

By DUANE SCRIBNER

MSTC's Dragons seek their second grid win in two games tomorrow night when they meet the Concordia Cobbers in a Cobber home game at Decotah field, NDAC. Game time is 8 p.m.

The Dragons, fresh from a win over Valley City STC last Friday, run into a Concordia team which fell at the feet of NDAC last Saturday. It was the Cobbers' first loss to AC since 1946. Coach Fritz Bierhaus' boys will be out to make it the first MSTC win over Concordia in 13 years.

MSTC-Concordia games are always full of spirit. With a real chance for a win by the Dragons, the game should be no less exciting than in years past. Jake Christiansen's boys will be out for a win, too, to add to the fire in the contest.

With a full week of practice in since the last game, Dragon football should show a bit more consistency than in last week's game. If the Dragons can play the game they played at times last Friday, there'll be at least a platter of cooked fish after the game tomorrow.

### 'WE HAD THE BREAKS'

Coach Bierhaus explained last Friday's 27-6 win with "We had the breaks, and Valley City didn't." That's certainly true. But there needn't be any hesitation in going out on the ever-shaky limb and predicting that this game will be one of the closest in MS-Cobber history, and there's an excellent chance that the Dragons will be on top when the game ends.

Bierhaus' starting lineup will be an all-veteran one. Everyone will be watching Ronnie Noesen, who starred for the Dragons last week. Jimmy Johnson and Norm Przybilla should provide their share of excitement for the fans, as well as some good scoring punch. Quarterback Jere Cooper's sneaks were nice to watch last Friday,

and should be again.

Concordia's line should prove one thing to the Dragons tomorrow night — whether it was an exceptionally weak Valley City line or a powerful MSTC forward wall that opened the holes for the Dragon backs last week.

### COBBER LINE IS BIG

Jake's boys are big and supposed to be powerful, even though they didn't show too well against NDAC last Saturday. The foxy Cobber coach will probably have a few tricks up his sleeves, too.

The Dragon line isn't as big as Concordia's, but it proved last week that it has punch. The Varriano brothers, Ralph Crews, and the rest of the line will make themselves felt, without a doubt.

On defense, Keith Olson and Bill Ihlenfeldt will be out to show some more of the stopping power that kept Valley City to only six points last week. Olson's game showed much more Friday than at any time last year, and more of the same will help the Bierhaus boys a great deal when the time comes to stop the Cobbers—or else.

Both Bierhaus and Christiansen are crying this week about a lack of almost anything you can think of. But this could be one of the best games of the year, especially if both teams remember they're in a football game. They haven't always done that in the past.

Everything considered, it should be quite a game. And with good backing from Dragon fans the grid-ders will be in there pitching—and passing and running and blocking—all the way. Let's hope the fans are doing as much.

# CHESTERFIELD

# FIRST PREMIUM

# QUALITY CIGARETTE

## TO OFFER BOTH REGULAR & KING-SIZE

ASK YOUR DEALER  
FOR CHESTERFIELD  
— EITHER WAY  
YOU LIKE 'EM

★  
CONTAINS TOBACCOS OF  
BETTER QUALITY AND HIGHER  
PRICE THAN ANY OTHER  
KING-SIZE CIGARETTE

**BOTH** regular and king-size Chesterfields are premium quality cigarettes and come in the smart white pack.

**BOTH** contain only those proven ingredients that make Chesterfields the best possible smoke: the world's best tobaccos, pure, more costly moistening agents (to keep them tasty and fresh), the best cigarette paper that money can buy — nothing else.

**BOTH** are much milder with an extraordinarily good taste and, from the report of a well-known research organization — no unpleasant after-taste.

**BOTH** are exactly the same in all respects. There is absolutely no difference except that king-size Chesterfield is larger — contains considerably more of the same tobaccos — enough more to give you a 21% longer smoke, yet costs very little more.
